-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1 and 3-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shtarkman. The reference teaches coating rubber products, such as diaphragms and annular rings (i.e. spring 30), with Chemglaze Z202, a polyurethane, to protect them from oily environments; see column 4, lines 13-32. It would have been obvious to one of ordinary skill in the art to completely cover rubber products with the protective polyurethane coating Chemglaze Z202 if the resulting end use of the product required protection on all surfaces from an oil environment. The Chemglaze Z202 coating of the reference is considered to inherently possess the claimed properties of tensile strength, elongation, etc. set forth in claim 1 since Chemglaze coatings are disclosed in applicant's specification as being the preferred surface coating material and are also disclosed as possessing the claimed properties; see page 5, lines 17-25 and page 9, line 22 through page 10, line 23. Concerning claims 5-8, it would have been obvious to one of ordinary skill in the art to completely coat any rubber product that needs protection from an oily environment with the Chemglaze Z202 coating taught in the reference in view of the teachings in the reference at column 4, lines 13-32.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
